### Third Quarter 2022 Financial Results

Total net revenues for the third quarter of 2022 were RMB2,378.5 million (US\$334.4 million), compared with RMB2,975.5 million for the same period of 2021.

Live streaming revenues were RMB2,017.1 million (US\$283.6 million) for the third quarter of 2022, compared with RMB2,601.9 million for the same period of 2021, primarily due to a decreased number of paying users and lower average spending per paying user on Huya Live, as the recent macro and regulatory environment adversely affected the sentiment of the Company's paying users.

Advertising and other revenues were RMB361.4 million (US\$50.8 million) for the third quarter of 2022, compared with RMB373.7 million for the same period of 2021, primarily due to soft demand for advertising services resulting from the challenging macro environment. In the third quarter of 2022, content sub-licensing revenues made a relatively larger contribution to advertising and other revenues, mainly due to the fact that revenues from sub-licensing of e-sports tournament broadcasting rights are recognized according to event schedules and experience fluctuations between different periods.

**Cost of revenues** decreased by 17.6% to RMB2,036.2 million (US\$286.2 million) for the third quarter of 2022 from RMB2,471.5 million for the same period of 2021, primarily due to decreased revenue sharing fees and content costs, as well as bandwidth costs.

Revenue sharing fees and content costs decreased by 15.7% to RMB1,789.8 million (US\$251.6 million) for the third quarter of 2022 from RMB2,123.6 million for the same period of 2021, primarily due to the decrease in revenue sharing fees associated with declined live streaming revenues, and lower costs related to content creators.

Bandwidth costs decreased by 35.4% to RMB115.0 million (US\$16.2 million) for the third quarter of 2022 from RMB178.0 million for the same period of 2021, primarily due to improved bandwidth cost management and continued technology enhancement efforts, as well as less overseas bandwidth usage as a result of the strategic adjustment in the Company's overseas business to focus on key markets.

Gross profit was RMB342.4 million (US\$48.1 million) for the third quarter of 2022, compared with RMB504.0 million for the same period of 2021, primarily due to lower revenues. Gross margin was 14.4% for the third quarter of 2022, compared with 16.9% for the same period of 2021.

Research and development expenses decreased by 16.7% to RMB171.8 million (US\$24.1 million) for the third quarter of 2022 from RMB206.2 million for the same period of 2021, primarily due to decreased personnel-related expenses and share-based compensation expenses.

Sales and marketing expenses decreased by 45.8% to RMB124.3 million (US\$17.5 million) for the third quarter of 2022 from RMB229.4 million for the same period of 2021, primarily due to decreased marketing and promotion fees as well as personnel-related expenses.

General and administrative expenses decreased by 1.8% to RMB78.7 million (US\$11.1 million) for the third quarter of 2022 from RMB80.1 million for the same period of 2021.

Other income was RMB43.9 million (US\$6.2 million) for the third quarter of 2022, compared with RMB94.8 million for the same period of 2021, primarily due to lower tax refunds and government subsidies.

Operating income was RMB11.6 million (US\$1.6 million) for the third quarter of 2022, compared with RMB83.1 million for the same period of 2021.

Interest and short-term investments income were RMB71.7 million (US\$10.1 million) for the third quarter of 2022, compared with RMB62.6 million for the same period of 2021.

Income tax expenses were RMB19.6 million (US\$2.8 million) for the third quarter of 2022, compared with RMB40.6 million for the same period of 2021, primarily due to the lower taxable income.

Share of income in equity method investments, net of income taxes was RMB0.05 million for the third quarter of 2022, compared with RMB378.7 million for the same period of 2021, primarily due to the investment income related to a disposal of equity investment in the third quarter of 2021.

Net income attributable to HUYA Inc. was RMB60.4 million (US\$8.5 million) for the third quarter of 2022, compared with RMB524.4 million for the same period of 2021.

Non-GAAP net income attributable to HUYA Inc., which excludes share-based compensation expenses, was RMB106.1 million (US\$14.9 million) for the third quarter of 2022, compared with RMB180.0 million for the same period of 2021, which excludes share-based compensation expenses, gain on fair value change of investments, net of income taxes, and gain arising from disposal of an equity investment, net of income taxes.
